About GLOBALFOUNDRIES:

GLOBALFOUNDRIES is a leading full-service semiconductor foundry providing a unique combination of design, development, and fabrication services to some of the world’s most inspired technology companies. With a global manufacturing footprint spanning three continents, GLOBALFOUNDRIES makes possible the technologies and systems that transform industries and give customers the power to shape their markets. GLOBALFOUNDRIES is owned by Mubadala Investment Company. For more information, visit www.globalfoundries.com.

INTRODUCTION

This is a Principal Analyst position in the Transformation Office at GLOBALFOUNDRIES, responsible for defining, driving and executing transformation initiatives across various functions of the business (including but not limited to revenue generation, technology transfer, cost optimization).

The candidate will support strategic projects, help define and implement KPI-based metrics to determine project efficiency and effectiveness and follow through to ensure execution. Demonstrated hands-on expertise in all aspects of project definition, prioritization, execution and steering. In order to be successful the candidate will regularly support cross-functional teams and senior management to define business processes and solutions for program and resource management, gain stakeholder alignment and execute.

Your Job:

- Gather information from different data sources and build solid financial models to support business decisions (e.g. investment cases, M&A transactions)
- Develop clear and logical arguments for or against specific business opportunities
- Provide support in establishing processes and methodologies for managing projects and project portfolios, including set-up and day-to-day activities
Help establish project management and prioritization processes, attend regular meetings for escalating and resolving resource conflicts
Work together with a cross-organizational team to establish common KPIs to measure project management performance and health and to report to senior management
Provide support in reporting, progress control and definition of mitigating actions as required of strategic and transformation initiatives

**Required qualifications:**

- Bachelor’s degree in Business, Finance, Economics, Mathematics, Engineering or similar relevant field
- Fluent in English (written and verbal)
- Willing and able to travel globally and accept international assignments as needed

**Preferred qualifications:**

- Master’s in Business Administration
- 2+ years of relevant experience in professional environments, such as top consulting firms, investment banks, or corporate finance functions while working in close collaboration with the CEO and top corporate executives
- Strong presentation and soft skills
- Strong focus on execution and delivering end products
- Self-driven personality with exceptional analytical skills, structured work style and ability to understand complex matters quickly
