Senior Analyst, Natural Gas Liquids – Singapore

Salary: To be based on skills/experience/talent | Experience: 2 years’ experience

FGE is actively recruiting a Senior Analyst, Natural Gas Liquids to join its Singapore office.

We are specifically seeking expertise in analyzing short-term market developments. If you feel you are uniquely qualified for this role, please consider applying.

The role and responsibilities will vary according to the skills and experience, but will generally include:

- Is responsible for analysis and forecasting of the various markets of LPG, condensate, naphtha and ethane under the family of Natural Gas Liquids - supply, demand, trade, infrastructure developments, new projects, and benchmark price relationships.
- Works independently on individual project tasks but may still be under the supervision of an assignment manager.
- May be called upon to coordinate project and/or retainer work.
- Regularly engages in original research/writing under the guidance of senior staff members.
- May be called upon to provide intellectual input to marketing and thought leadership activities through the individual’s understanding of market fundamentals and experience with back end client interaction.
- Provides strong support to the business development activities through proposal writing and material preparations.

The ideal candidate should have the following attributes:

- Minimum Bachelor’s Degree.
- At least 2 years’ experience in oil and gas industry.
- Has a defined specialty and is able to create independent research on the matter in conjunction with consultants.
- Ability to present findings with confidence.
- Is a stable and consistent performer.
- Strong sense of responsibility.
- Fluent (written and verbal) in English.
- Good writing and oral presentation skills.
- Able to work in Singapore.
- Proficient in Microsoft Excel and Microsoft PowerPoint.
- Ability to work effectively with regional offices to promote products globally.

If you are interested in this position, and you meet the above requirements, please submit your application to Mr. Ong Han Wee at hw.ong@fgenergy.com. We will endeavor to contact applicants as quickly as possible.
