GRID Communications Pte Ltd (GRID) is the leading public telecommunications walkie talkie network operator in Singapore. It is the only public trunked radio operator that provides island-wide coverage with more than 300 base stations over Singapore.

A joint venture between ST Telemedia and Singapore Telecommunications, GRID Communications presently uses Motorola’s Integrated Digital Enhanced Network (iDEN®) technology which combines communications services that previously required several devices. These services include Push-To-Talk (PTT) two-way radio, cellular service, wireless data, and text messaging. It operates a fully integrated digital wireless communications service under the brand “GRID”.
